Live Healthy. Live Smart.

Income: Help Families Achieve Self Sufficiency

- Medical costs and debt – In 2014, 35% of adults had difficulty paying their medical bills.¹
- Poorly controlled diseases – 35 million people did not fill a needed prescription in 2014 because of cost.¹
- Employment does not equal insurance – 85% of uninsured Americans live in a family with at least one full- or part-time worker.²

Education: Improve High School Graduation Rates

- Medication adherence – An estimated 50–88% of children don’t adhere to their medication.³
- Drop out rates – 19% of youth surveyed dropped out of school in part to help earn money to support family members.⁴

Health: Provide Affordable Medication

- High deductibles – As of 2014, 43% of adults said their deductible was either somewhat difficult, very difficult, or impossible for them to afford.⁵
- High medication cost – 57% of people polled reported taking potentially dangerous steps to curb their medication costs, including not filling a prescription, skipping doses, or taking expired medication.⁶
- Prescription savings option – Nationally, FamilyWize has helped over 10 million people by saving them more than $1 billion on their prescription medications through January, 2017.⁷
