

# MAKING CHOICES

**WITH LIMITED RESOURCES, HOW WILL YOU MANAGE?**  
Asset Limited, Income Constrained, Employed

The United Way ALICE Report found that 37% of households in Hernando County, are working and are above the Federal Poverty Level, but still are having a difficult time making ends meet.

The fact is that in Hernando County, a family of four (two working adults with two young children) making \$70,980 per year is still having a hard time covering the basics: housing, health care, transportation, child care and food. Each month is a juggling act as these families make difficult choices to meet their needs.

**What would you do?** If you had this “Working Budget” to spend every month, how would you spend it? What would your priorities be? You must make choices for every category, without skipping any. You have a spouse; you both work and have a son, 10, and a daughter, 3.
